Soil and Water Conservation District

Master Watershed Conservationist Program

- Highlights:
 - The group created information forums to establish a curriculum for the program, identified SME's, for each area, and developed the presentations.

Soil and Water Conservation District

Master Watershed Conservationist Program (Phase II)

- Program forums will be presented one per month starting in September 2021 - Through April 2022.
- Successful completion is: Attending 75% of the forums, and doing 40 hours of project work.
- Project sites have been identified.
- Certificates of Completion will be presented to those meeting the attendance and project work requirements.
